BRIEF OVERVIEW OF CHAPTER

The Tsaile/Wheatfields Chapter is a home to the main campus of the Dine College. As noted above, Dine College is the largest employer in the area. Dine College has extension branches at each of the Navajo Nation growth centers. Including the extension branches, Dine College provides education to an average of 3,950 students per year over a ten year period from 1984 – 2014. The overall average for the last three years of that period was 4,807 or an equivalent to 2,940 full time enrolled students; 90% are American Indian, with nearly all being Navajo. Beyond the student population, the Tsaile campus offers a valuable resources outlet for educational, recreational, and entertainment of events for the Navajo people and the surrounding communities. Several special events are sponsored on campus, including seminars, conference, music festivals, plays, concerts, sports tournaments, rodeo, etc.

The Tsaile/Wheatfields Chapter house is located next to Navajo Route 12 less than three (3) miles northwest of Wheatfields Lake. The Tsaile/Wheatfields Chapter area is very scenic with the Tsaile Butte and the Chuska Mountains dominating the eastern skies. Both Wheatfields Lake and Tsaile Lake provide boating, hiking and enjoyable fishing in the warmer months and ice-hole fishing during the winter.

The Tsaile/Wheatfields and Black Rock communities have no employment opportunities except those at the previously mentioned establishments and temporary employments at the Chapter House. Consequently, the primary economic avenues include livestock production, and to more limited degree of welfare, farming and art and crafts.

Due to the remoteness and isolation of our community, especially surrounding of Wheatfields and Tsaile, there is very little socio-economic developments for the benefit of employment opportunities for the local constituents.
